

Offsite Events with Haven's Kitchen

Haven's Kitchen offers off-site private event services at private residences, gallery spaces, and venues around the city. Our goal is to emulate the warmth and brightness of our Chelsea location through our food, service, and design to other spaces in New York City.

We collaborate with our guests as a creative partner to celebrate milestones, launch new projects they've worked hard to build, or simply gather to cook and eat. We work with you on each step of your process of creating your event from venue and food to programming and design.

Venue

If you already have a venue, our events team will do an in-depth site visit to assess the logistics. We can also help you find the best space for your event with our list of exclusive venues.

Food

We believe in connecting people through food. In line with our mission, we are committed to using seasonal produce and sourcing sustainably raised meats and fish. Seasonal produce not only makes for better flavor, it also raises your event into an act of support for local growers.

Service

Our full service events company is staffed by professionals with experience from some of New York City's best restaurants such as Per Se, Momofuku, and Jean-Georges. Our team balances a style of service that is polished, hospitable, and attentive.

Programs

We specialize in culinary-focused events from intimate wedding receptions to large press launches, and corporate team-building cooking classes.

Design

Our carriage house is a respite and relief from the chaos of New York City. That feeling carries through into other venues as we hold fast to our aesthetic: a balance of the minimal and warmth. We create atmospheres for clients that best express their values and objectives.

For more information about off-site event services, email our events team at events@havenskitchen.com.
